

ODIN PULL SELENITE (CSP500)

The Odin Pull adds volume and drama to any millwork. Each pull is hand cut from a block of selenite - leaving as much of the natural quality of the stone. Lost wax casting is used to create a refined metal end cap that wraps around the natural edge of each side. Each piece is handmade and unique.

OVERALL DIMENSIONS

Height: 2"

Width: 6"

Depth: 2"

Two mounting holes*

*As this item is hand-cast and made-to-order, we cannot provide their location ahead of completion and it is not recommended to pre-drill.
